

## 2014 Indiana Mechanical Code

- - -

## Parallel Page Amendments™

These Parallel Page Amendments™ are comprised of reformatted Indiana amendments to the 2012 International Mechanical Code. These amendments together with the 2012 International Mechanical Code form the 2014 Indiana Mechanical Code.

This document has been prepared by RTM Consultants, Inc. and has been carefully reviewed by our staff. We have made every effort to faithfully replicate the text of the amendments published at 675 IAC 18-1.6, however, we make no warranty concerning the accuracy of the content. Updates, corrections and addenda will be posted at [www.rtmconsultants.com/indiana-codes/](http://www.rtmconsultants.com/indiana-codes/).

This document has been designed for use with all printings of the 2012 IMC. These reformatted pages are numbered on the bottom of each page and are designed to be inserted opposite the pages affected by each amended code section. Additionally, page numbering has been provided at the top of each page to enable the user to confirm this set is complete.

Delete **CHAPTER 1** and insert to read as follows:

**101.1 Title.** This rule shall be known as the 2014 Indiana Mechanical Code and shall be published, except incorporated documents, by the Department of Homeland Security for general distribution and use under that title. Wherever the term "this code" is used throughout this rule, it shall mean the 2014 Indiana Mechanical Code.

**101.2 Scope.** The scope and purpose of this code is to establish the minimum requirements for the following:

- \*[1.] Construction, addition, alteration, erection, or assembly of any part of a Class 1 structure at the site where the structure will be used.
- \*[2.] Installation of any part of the permanent heating, ventilating, air conditioning, electrical, plumbing, sanitary, emergency detection, emergency communication, or fire or explosion suppression systems for a Class 1 structure at the site where it will be used.
- \*[3.] Work undertaken to alter, remodel, rehabilitate, or add to any part of a Class 1 structure.
- \*[4.] Safeguarding life or property from the hazards of fire and explosion for Class 1 structures.
- \*[5.] Fabrication of any part of a Class 1 industrialized building system for installation, assembly, or use at another site, except mobile structures.
- \*[6.] Work undertaken to relocate any part of a Class 1 structure, except a mobile structure.
- \*[7.] Assembly of a Class 1 industrialized building system that is not covered by subdivision (5), except mobile structures.

Detached one (1) and two (2) family dwellings and townhouses not more than three stories high and their accessory structures shall comply with the Indiana Residential Code, 675 IAC 14.

**101.3 Intent.** The intent of this code is to prescribe maintenance, new construction requirements, and operational rules for the safeguarding to a reasonable degree of life and property from the hazards of fire or explosion arising from the storage, handling, or use of substances, materials, and devices.

**\*\*101.4**

*(continues on next page)*

\*[RTM Editorial Comment: The published Indiana amendments for this section include only the IAC 18-1.6 alpha/numeric legal section designations. This section should have been created using the IMC outline style. We have added numbering in the established IMC style for consistency and ease of use.]

\*\*[RTM Editorial Comment: Section 101.4 does not exist in the Indiana Amendments as published.]

*(continued from previous page)*

**101.5 Appendices and Standards.** Provisions in the appendices are not enforceable unless specifically adopted. The codes and standards referenced in this code shall be considered part of the requirements of this code to the prescribed extent of each such reference. Where differences occur between provisions of this code and referenced codes and standards, the provisions of this code shall apply.

**Exception:** Where enforcement of a code provision would violate the conditions of the listing, labeling, or manufacturer's installation instructions of the equipment or appliance, the conditions of the listing, labeling, or manufacturer's instructions shall apply.

**101.6 Appeals and Interpretations.** Appeals from orders issued by the Fire Prevention and Building Safety Commission or the Division of Fire and Building Safety are governed by IC 4-21.5 and IC 22-12-7. Appeals from orders by a local unit of government are governed by IC 22-13-2-7 and local ordinance. Upon the written request of an interested person who has a dispute with a county or municipal government concerning a building rule, the state building commissioner may issue a written interpretation of a building law. The written interpretation as issued under IC 22-13-5 binds the interested person and the county or municipality with whom the interested person has the dispute until overruled in a proceeding under IC 4-21.5. A written interpretation of a building law binds all counties and municipalities if the state building commissioner publishes the written interpretation of the building law in the Indiana Register under IC 4-22-7-7(b).

**101.7 Plans.** Plans shall be submitted for Class 1 structures as required by the General Administrative Rules (675 IAC 12-6) and the rules for Industrialized Building Systems (675 IAC 15).

**101.8 Existing Construction.** For existing Class 1 structures, see the General Administrative Rules (675 IAC 12-4) and for Class 2 structures as required by local ordinance.

**101.9 Additions and Alterations.** Additions and alterations to any Class 1 structure shall conform to that required of a new structure without requiring the existing structure to comply with all the requirements of this code. Additions or alterations shall not cause an existing structure to become unsafe (see the General Administrative Rules (675 IAC 12-4)).

**101.10 Alternate Materials, Methods, and Equipment.** See the General Administrative Rules (675 IAC 12-6-11) and the rules for Industrialized Building Systems (675 IAC 15).

*\*Amend Section 401.2 to add the letter "R" after "Section" and before "402.4.1.2".*

*\*\*Amend Section 401.4 by deleting "501.2.1" and inserting "501.3.1".*

*Delete Section 401.6 Contaminant sources in its entirety.*

**\*[RTM Editorial Comment:** This amendment was based on an erratum issued by the ICC for first and later printings. However, the ICC did not actually apply the errata changes in the second and some later printings of the 2012 IMC. Therefore, this amendment affects all printings where "R" does not exist after "Section" and before "402.4.1.2".]

**\*\*[RTM Editorial Comment:** This amendment was based on an erratum issued by the ICC for first and later printings. However, the ICC did not actually apply the errata changes in the second and some later printings of the 2012 IMC. Therefore, this amendment affects all printings where "501.2.1" exists in place of "501.3.1".]

*\*Amend Section 502.4, Exception by adding the following text Lithium-ion "and lithium metal polymer" batteries shall not require "additional" ventilation "beyond that which would normally be required for human occupancy of the space."*

**\*[RTM Editorial Comment:** This amendment was based on an erratum issued by the ICC for first and later printings. However, the ICC did not actually apply the errata changes in the second and some later printings of the 2012 IMC. Therefore, this amendment affects all printings where the Exception reads only, "Lithium-ion batteries shall not require ventilation.".]
